

Work History

Grandpa-George

Minneapolis, MN

September '09–September '10

February '11–Present

Web Developer Intern

Developed both internal and client websites in HTML / CSS, PHP, WordPress, and JavaScript. Wrote frontend and backend code for Grandpa-George's annual soup party website for 2010. Lead development on the website of the Australian artist Diablo Mode. Developed HTML emails for a local marketing consulting company. Kept track of hours worked on projects to task level. Programmed in Ruby on Rails using Twilio API and Heroku to create a visual voicemail application. Delegated tasks to other interns. Produced training videos for clients to be able to use and update their websites and videos for training Graphic Design students on the basics of HTML and CSS.

The Art Institutes International Minnesota

Minneapolis, MN

June '10–Present

Student Tech

Loaded Mac and Windows software images on school computers. Set up new computers. Took low-level tech support related issues from faculty and staff. Checked out photography, video, and other miscellaneous gear to faculty, staff and students. Assisted with the implementation of checkout policies. Assisted with training of new employees. Ensured a quality experience of the patrons.
